## From Editorial Department

The colourful Korean Stamp Catalogue (1946-1998) is the latest edition of the Korean Stamp Catalogue issued in Juche 82(1993) in compliance with the growing demands of the stamp collectors and stamp dealers.

Today the Korean stamps, for the richness in the contents of the design, high level of artistic quality and for the enlarged thematic sphere, are widely collected at home and abroad.

Entering 1990s, the Democratic People's Republic of Korea issued the first stampcard in the world, a new philatelic item in accordance with the world trend of stamp. It also issued bichangeable picture postcards printed with postage on their backsides, which are attracting philatelists.

The current catalogue comprises over 3,800 stamps issued in the D.P.R.K. from the first stamps "Rose of Sharon" and "Samson Rocks" released on March 12, Juche 35 (1946) up to the stamps issued until June, Juche 87 (1998).

The stamps widely reflect the revolutionary exploits achieved by Comrade Kim Il Sung, the great leader of the Korean people and the daily-

developing realities of our country under the wise leadership of the great leader Comrade Kim Jong Il and many historic events.

The stamps also mirror our country's time-honoured history, culture, beautiful sceneries, flora and fauna, sports, customs of the Koreans and the international events, which will help you get a better understanding of Korea.

The shortcomings of the former catalogues are made up in this catalogue.

For the convenience in ordering, the stamps are listed in the stock number. Therefore, it is essential to give the stock number when you order the stamps.

The sales prices are marked in US\$ and given for the values and sets of the mint and used.

All stamps are presented in their original colours with the size reduced to 50 percent for stamps, souvenir sheets and 50-70 percent for some sheetlets.

The catalogue shows at the end booklets, presentation packs and stampcards issued until June, Juche 87 (1998).

## N o t e
